MR. BEECHER AND DR. VAN DYKE. for several hours, but her experiences were "Whether clergy men shall be politicians." is discussed pro and con in the last North American Review by Rev. Henry Ward Beecher in the affirmative and Rev. Dr. Van Dyke in the negative. Mr. Beecher holds that other ministers than Roman Catholic and Protestant Episcopal may, since they have not the sacerdotal character, indulge in politics. He holds that the ministry of the two churches named can not divest themselves of the sacerdotal character, and are. therefore, unfitted for political advisorship. Dr. Van Dyke rules every denomination of clergymen off the stump, on the ground that "a lack of worldly experience, combined with a professional habit of rhetorical statement, will produce an odium politicum, compared with which the traditions of the the stories of the golden age."

meddling in politics bring upon a clergyman both "odium politicum" and "odium theologicum." In other words-descending from Dr. Van Dyke's pedantic phraseologythe average minister who affects politics makes a mess of it, and while so doing invariably compromises himself in the respect of his parishoners and the public at Jarge. To vote is a clergyman's right, and to talk politics his privilege. So it is the privilege of the commercial man to engage in wild speculations, but for him to do so is to shake the confidence of the commercial public in his mienes and thus mar his reputation and influence. Ministers are understood to set themselves apart from the world to the promotion of divine purposes. They are elevated by public sentiment as derneath the bell, by the ng better than the promiscuous worldly herd. The latter, expecting the with

walk and conversation, look to them as consides with one party or another results in his, to the extent of his influence, agera-

It the last campaign contributed to the election of the candidate he esponsed. But did the close of the canvass find Mr. Beacher as influential a minister of the Gospel as at 1ts beginning? There are thousands of voters, erstwhile respectful readers of his sermons. who now are filled with prejutice against him, and therefore less impressible to his are pulpit atterances. So with every minister who conspicuously championed either candidate for the Presidency.

The teaching of the principles of morality and the truths of Christianity is one, and a very admirable thing, but the championship of a political faction or candidate quite another. One is for the glorification of God, the other for the gratification, frequently, of selfish ambition. One is reverenced by mankind as comething sacred, the other is suspected as something sinister.

It is certain that the clergyman who confines himself to the task of saving souls can make no mistake, but a digression for saving political candidates is not assured.

The limitation of such enormous grants ought to come soon, and be made as peremptory as possible. We want no landlordism here.

A WONDERFUL AGITATION. An extraordinary revival of religion is reported from Hartford City, Ind. From a recent special we gather some interesting details. On the 19th of this present menth the BEN PERLEY POORE, the veteran Washing- incidents bordered on the marvellous: A score or more were in a cataleptic condition at once, and, after lying for hours, their restoration to consciousness was attended with varied and various expressions as to their experience and sightseeing while in that condition. Another called all his old comrades in arms around him and gave them command to fall in line and invade the enemy's ranks.

The scenes are described as "outrivaling" anything of the kind ever witnessed in that locality. Hundreds gather at every meeting, and the same peculiar experiences are noted. A "Sister Woodworth" conducts the meetings, and a correspondent asserts that with a simple wave of her hand the people fall around her as if they were stricken with death. The meetings have occasioned a most wonderful interest, and the people of cited. THE OLD LIBERTY BELL. There is no other inanimate object so heroized by American sentiment as the old "cracked bell of liberty" now in transitu from Philadelphia to New Orleans. The dispatches have described the incident of its being lowered from its elevated home in Independence Hall on Friday, how it was placed on a truck drawn by six horses and decorated with garlands, flowers and flags, with 500 policemen escorting it to the depot. Houses along the line of the procession were also decorated. A car, specially constructed for its transportation, was in waiting upon a platform within which it was securely bolted. Around the platform is a secure brass extinct odium theologicum will seem like railing with posts ornamented with gilded bells. Over the frame is an inscription: It is in almost universal evidence that "1876. Proclaimed Liberty." The car with its guard of three officers was attached to a special train bearing a committee from the Common Council of Philadelphia to the World's Exposition. When the train reached Pittsburg at night, despite the late hour and the intensely cold weather, there were between 2,000 and 3,000 people in waiting at the depot to see the old bell. So, all along the route, will the people gather at the stations to get a look at it; and at the Exposition, of all the attractions there collected, it

will be the central one. It is impossible to describe the veneration. the sentiment scarcely short of idolatry, with which the typical American stands in the presence of this relic of the Revolution. The writer has stood upon the landing, just un-

The resolution is adopted, and we can fancy the tongue of the old bell. hanging aloft, moves as if to sound a "well done," But it refrains until a name shall be given the prospective government and its platform of principles stated. TWO PHASES OF DOUBT. Colonel Ingersoll has been airing some o his brilliant blasphemies in New York, and has provoked a discussion with Rev. Heber Newton, the Episcopal clergyman, whose latitudinarian views on matters of faith got him into trouble with the authorities of his church recently. Colonel Ingersoil contended that man and not God should rule the world, inasmuch as when God did govern the world He governed it very badly. He thought as a certain king of Castile did once when contemplating the Ptolemean theory of the solar system. that if he had been called upon at the creation he could have improved upon the work of the Creator considerably, and that in point of fact that he could have made a better world than was made.

The Rev. Heber Newton, describing the statue of doubting Thomas, standing with a measuring rule in his hand in the midst of the other apostles, in the cathedral of Copenhagen, ready to submit everything to an absolute test, said that while Thomas was sceptic, a true rationalist, was honest in his scepticism, and worthy of his place among the apostles. The history of progress shows that progress is always along the line of doubt, but it must be honest doubt, and with a sincere

desire to know the truth and that only. Alluding to Ingersoll, he said there is a chesp and nasty doubt which goes through the land, denouncing the ministry on Sunday nights, at fifty cents admission and \$1 for reserved seats, announcing with a great flourish of every brazen trumpet the novel discoveries in Biblical criticism known scholars a generation ago, but overthrowing only the results of studies in church history carried on in the intervals of professional duties not the most honorable, and seeming to say: If the Almighty had called me in at the creation I would have given some valuable points. In respect to what he considered a true and honest doubt Mr. Newton

"There is a certain doubt, sorely perplexed in our epoch of transition, sincerely trying to build up a better faith through its every questioning of what seems no longer believable. I do not believe that healthy minds can go on believing what our fathers believed. It you have a doubt that the Bible is true, then honestly follow your consciousness that it is your duty to do right, and as surely as the sun shines from the heavens it will lead you to a faith in God. In other words, there is no doubt which touches the essentials of religious faith to-day which can not be sufficidntly answered if men will only think long enough, think hard enough, read wide and deep enough. What you want is not less light, but more light. Pash your doubts out of the shadow into the light. Then you will find in what you ight a devil an angel to lead you higher. This is the real hope of the church. Out of it is to

come the Christianity of the future. To this Colonel Ingersoll, with characteristic effrontery and impudence, simply replied that if Mr. Newton had honest doubts he ought to quit preaching, and that he guessed God could get along without the Episcopalians anyway.

THE Northwestern Christian Advocate well says that preachers should never forget that their exemption from the laws of debate-the fact that they are listened to in respectful and reverent silence-imposes a corresponding obligation to speak soberly, carefully, truthfully; to sift their facts.

SENATOR THOMAS F. BAYARD WAS born October, 1828, and is now in his fifty-seventh year. His hair is iron gray and his smoothshaven, handsome face does not betray any signs of coming old age. He has led an abstemious life, and supplemented good habits by plenty of out-door exercise. He is fond of horseback riding, is a master of the art and a most excellent judge of horseflesh. He is above medium height, and his frame is well proportioned and muscular. His habits are domestic, and his family circle is a charming one.

GENERAL ALBERT PIRE's ability to eat is still a wonder to his friends. Years ago he made a reputation in this line, and he is one of the few men whose early promises have ripened. Recently, while visiting in Little Rock, he took dinner at the Capitol Hotel. When asked what he would have he replied: ·Well, having eaten a late breakfast, I am not very hungry. Thursday afternoon a business man of the city and an attorney of some prominence met in Cal Rooker's office, in the Thorpe Block, and a disagreement arose over the settlement of an account. The attorney is said to have referred to the business man in terms not altogether consistent with the latter's dignity, and also expressed a doubt of his verscity in a manner not at alt "childlike and " whereat the business man is to have mounted his adversary's frame to the detriment of table, chairs and other office furniture. As soon as the

awyer disentangled himself he made hasty steps down the hallway, crying for help at the top of his voice. Both parties were afterwards before justice, the business man being fined, and the case of the lawyer taken under advisement. Reports last night indicated that the lawyer's inuries were more serious than at first supp and he was said to be suffering considerably.
